1 INTRODUCTION

The International Paralympic Committee (IPC) is pleased to present the Identifications on NPC Team Apparel - Practical Guidelines for the Paris 2024 Paralympic Games. These Guidelines contain the general rules concerning the manufacturer identification and apply to all Apparel, meaning Clothing (any piece of attire worn by a Participant, including, without limitation, competition clothing as prescribed within the rules of each sport), Footwear (shoes or boots worn by a Participant) and Clothing Accessories (any article that is of an accessory nature, worn by a Participant but which are not essential to the participation in the event).

The rules applicable to non-clothing accessories, sports equipment and other items shall be set out in due course in the Authorised Identification Guidelines for the Paris 2024 Paralympic Games.

The Paralympic Games place the national and Paralympic identity of athletes at the forefront, which helps to further distinguish the Paralympic Games, whilst respecting the significant contribution that sporting goods manufacturers provide. Founded on the approach followed by the International Olympic Committee (IOC) for the Olympic Games, one of the key factors that differentiate the Paralympic Games from other sporting events is the visual presentation of the Games, which includes the 'look' of the participants, the venues and the field of play.

The purpose of these Guidelines is to clarify the use of trademarks using visual diagrams to illustrate the regulations of the IPC Handbook, Section I, Sub-Section 3 (Paralympic Games Principles). These Guidelines apply to all persons participating in the Paralympic Games.

Furthermore, the Guidelines aim at providing certain clarifications on how the Identification of the Manufacturer may be used (or not) in general and specific situations. They are not intended to restrict or otherwise impair new and innovative technological design features of clothing, equipment and accessories as long as those are in conformity with the rules and regulations applicable for the Paralympic sports concerned and the Guidelines.

Notwithstanding the above, the Guidelines shall be used subject to the understanding that (i) in case any term of these Guidelines is in contradiction with the IPC Handbook, the latter shall prevail and (ii) the IPC Governing Board shall be the sole authority to finally determine whether the use of a manufacturer name, designation, trademark, logo or any other distinctive sign complies with the IPC Handbook and the Guidelines. The Guidelines will be distributed to all National Paralympic Committees (NPCs) and International Federations (IFs). We encourage all parties to make use of this reference manual during the design and production of clothing, equipment, accessories and footwear items for the Games.

2 DEFINITIONS

3 GENERAL PRINCIPLES

Pursuant to the IPC Handbook, Section I, Sub-Section 3 (Paralympic Games Principles), no form of publicity or propaganda, commercial or otherwise, may appear on persons, sportswear, accessories or, more generally, on any article of clothing or equipment whatsoever worn or used by persons participating in the Games, except for the Identification of the Manufacturer of the article or equipment concerned, provided that such identification shall not be marked conspicuously for advertising purposes.

An Authorised Identification may only be used in compliance with the terms of the IPC Handbook, the Guidelines or as further approved in writing by the IPC.

The IPC reserves the right to prohibit the use of any Authorised Identification on any given item in order to ensure the spirit of the principles of the IPC Handbook and these guidelines are respected.

Unless specifically mentioned otherwise hereinafter (in particular in the “Sport-by-Sport list”) or unless otherwise indicated in writing by the IPC, the following general principles shall apply:

- No use of any Manufacturer Identification may be made in a conspicuous way. No Apparel may be used for advertising purposes. In particular, Apparel will be considered to be used for advertising purposes when the Identification on such Apparel is not in relation to sport or is only featured or used for the purpose of conspicuous exposure during the Paralympic Games.
- No identification other than an Authorised Identification may appear on any item.

3 GENERAL PRINCIPLES

- Only one Manufacturer Identification per piece of Apparel shall be permitted except as provided in these Guidelines.
- Exception: Where one-piece body suits are used in competition, one Identification of the Manufacturer shall be permitted above the waist and one below the waist, provided all other principles are respected.
- Where the Manufacturer Identification is not a Clothing Brand, such identification constitutes conspicuous advertising and so shall not be permitted on apparel. A Clothing Brand is a brand principally used in the business of manufacturing, providing, distributing, and selling clothes and which is (i) not principally used for non-clothes products, (ii) not confusingly similar or identical to an identification used in another line of business, unrelated to clothes. For Clothing Items, the Manufacturer Identification may be that of a clothing brand.
- Participants must not contribute to or participate in any conspicuous advertising within the Games venues and sites, and, in particular, on the field of play.
- An Authorised Identification may only be used in compliance with the terms of the IPC Handbook, these NPC Apparel Guidelines or as further approved in writing by the IPC.
- The IPC may further prohibit the use of any Authorised Identification on any apparel item in order to ensure the spirit of the principles of the IPC Handbook and these Guidelines are respected.

4 NPC EMBLEMS AND NATIONAL IDENTITY

Subject to the General Principles (pages 7-8), NPCs are encouraged to use their national colours, name, flag, and emblems, as well as NPC Emblems (hereinafter, National Identifications), in order to visually enhance the national identity of their Apparel. NPCs have the right to choose the National Identification(s) which will be used by their delegations on Clothing (i.e. NPC Emblem or national flag).

No maximum frequency or sizes are applied to National Identifications, unless limitations are imposed within a specific sport's technical regulations (please refer in particular to the sport specific implementation section for more details).

No item of Apparel may feature the wording or lyrics from national anthems, motivational words, public/ political messaging and/or slogans related to national identity.

NPCs, in particular the NPC of the country hosting the Paralympic Games (in this case, France Paralympic and Sports Committee), may not use the "Look of the Games" in any way which creates confusion between the Paris 2024 workforce and the athletes and delegation officials of the host country delegation.

NPCs MUST NOT use:

- Any Olympic marks (e.g., Olympic Rings, NOC emblem, "National Olympic Committee of COUNTRY")
- International or National Sport Federation emblems
- IPC marks (e.g. Paralympic symbol) as a stand-alone element
- Any form of publicity or propaganda (commercial or otherwise)
- National anthems, motivational words, public/political messaging or slogans.

- Where one-piece body suits are used in competition, each of the Manufacturer Identification and the Product Technology Identification shall be permitted once above and once below the waist, provided all other principles are respected.
- One Manufacturer Identification will be permitted on zippers and buttons, and should appear in the same colour as the concerned item (i.e. tone on tone), as long as such identifications are not otherwise conspicuous.

Accordingly, personalised Footwear is not permitted as this is not deemed to be general design and/or identification as displayed on products sold on the retail consumer market.

8 GUIDANCE ON PLACEMENT

No Manufacturer Identification may appear in combination with any other Authorised Identification.

Manufacturer Identifications may not appear close or adjacent to other Authorised Identifications, in order to avoid a composite logo effect or a repetitive effect. This applies also in case of several layers of Items worn by the same person or for one-piece body suits.

No Authorised Identification may appear on the neck or the collar, on the body (e.g., tattoo) of any person participating in the Games or on any of the following items including but not limited to headphones, water bottles, coolers, umbrellas, towels, bandages (e.g. kinesiology tape), contact lenses, earplugs, mouth guards and nose clips. This list is exemplary and non-exhaustive and may be amended and completed from time to time by the IPC. Any such shall be communicated by the IPC to the NPCs and IFs.

On upper body Clothing items, Manufacturer Identifications should as much as possible be placed on the chest or on the sleeve.

The use of URL, social media accounts, and hashtags is not permitted on any item of Apparel worn during the Paralympic Games.

No item of Apparel may feature any identification that relates to a product, service or in any other way does not comply with the principles of the IPC Handbook.

10 DESIGNS

Designs of Apparel must comply with the specifications of these Guidelines. In particular, a design may be used for one Paralympic Summer and one Paralympic Winter Games but must be changed before the following Paralympic Summer or Paralympic Winter Games, as the case may be.

Authorised Identifications or any portion or variations thereof (such as graphic and/ or text that serve as concept extensions) cannot be used in designs (e.g., repetitions, extensions, distortions, watermarks, patterns, etc.) of Items.

For the avoidance of doubt, drawings, colour schemes, combinations, patterns, prints, letters, numerals, geometric elements, slogans, taglines, words and/or designs that derive or refer or otherwise create the impression that they are identical or similar to a Manufacturer Identification (including, in particular, *Exclusive Identifiers**), may not be used in designs of Items for the Paralympic Games.

** Exclusive Identifier(s) means any design or sign (or part or variation thereof) used by the manufacturer on clothing, equipment or accessories in the preceding edition of, respectively, the Paralympic Games and Paralympic Winter Games. (i.e. Exclusive Identifier(s) can be used for one Summer and one Paralympic Winter Games, but must be changed before the following Summer or Winter Games, as the case may be).*

11 HOMOLOGATION MARKS

If any identification is necessary for safety reasons and is prescribed within IF rules and regulations (e.g. “CE” or a similar non-commercial certification logo) and included within the Sport Specific Implementation section, such identification will be permitted on the Item, in a location that allows technical verification by officials.

20 SUMMARY

All parties involved in the design, production and use of items are advised to study the contents of these guidelines carefully. The IPC, IFs and LOCOG will work diligently prior to, and during, the Paralympic Games to implement and enforce these regulations and are available to provide clarification as needed.

The Paralympic Family must work together to raise awareness and recognition for the Paralympic Movement, wherever possible. The Paralympians are the most recognizable ambassadors of the Paralympic Movement and their pictures are carried all around the world. For this reason it is important that we do not miss this opportunity to increase the awareness of our movement through the athletes, while protecting equity among the various stakeholders.

Each NPC shall be responsible for ensuring all items worn or used by the members of its delegation comply with the guidelines. To maintain equity, any identification infringing upon these guidelines shall be removed or covered in accordance with the instructions given by the IPC, LOCOG or IF. To reiterate, any breach of the guidelines may lead to disqualification of or sanctions imposed on the athlete, NPC team official or the NPC, in accordance with the decision of the IPC Governing Board, or in accordance with the technical rules of the respective sport.
